Senator Willey.

Our readers will have noticed a statement which appeared a day or two since in our telegraphic columns that Senator Willey was one of the speakers at the mass meeting held at Grover's Theatre, in Washington, on the 22d. We are authorized to state that such was not the fact. Neither Senator Willey was present at the meeting.

The statement of the associated press probably referred to a Mr. Wiley, a lawyer of some prominence residing in Washington.

\*\*Interest Law in Virginia.\*\*

The bill legalizing contracts for 8 per cent. Interest passed the Virginia. Senate sometime since, and was subsequently rejected by the House. On Thursday last, however, the House reconsidered the vote; and there is now, so the Richmond papers say, a probability that the bill will become a law.

It is evident that nothing will be done by our own Legislature at the present session on this subject. A petition from Brooke county was some time since presented in the House to make 6 per cent the legal interest where no con.

\*\*APTERINGON SESSION

Brooke county was some time since presented in the House to make 6 per cent the legal interest where no contract was made, but to legalize contracts for higher rates, and referred to the Finance Committee, which reported favorably and requested the reference of the subject to the Judiciary Committee. The reference was made, and the Judiciary Committee reported adversely—and there the mattor rests. We think it is much to be regretted that some such law as proposed was not enacted. The financial interests or people and State would have been fostered by it.

The Bounty Equalization.

We have frequent inquiries about what additional bounty has been allowed by recent legislation at Washington City. All sorts of rumors are affont among the discharged and non-discharged soldiers; that 160 acres of land have been given; that the soldiers who got no bounty, or \$100, bounty, are to be paid enough to make their bounty equal to those who got \$400, that veteran soldiers are to have \$400 and non-votorans \$300 extra bounty more than the \$400 and \$300 already given them. The fact is, no additional bounty has yet been given by Congress to any soldier or discharged soldier. There is a bill before the Committee of Military Affairs in Congress to give all soldiers who have received less than \$100 enough additional to make their bounty equal to that sum. The Committee has not yet reported either for or against the bill. They sent an inquiry to the Paymaster General as to how much money it would require to meet the paymaster free real as to how much money it would require to meet the paymaster free real as to how much money it would require to meet the paymaster free real as to how much money it would require to meet the paymaster free real as to how much money it would require to meet the paymaster General as to how much money it would require to meet the paymaster General as to how much money it would require to meet the paymaster General as to how much money it would require to meet the paymaster General as to how much money it w tional debt of some \$2,700,000,000 on our country, greatly rich as it is, and throbbing as its mighty heart is with gratitude to its heroic preservers, to voluntarily increase so enormously its nstrous load, even to benefit them, would be folly almost to mad-

The B. & O. R. R. vs. Richmond. The bill to incorporate the Lynch-burg & Danville Railroad has been d by the Virginia Legislature passed by the Virginia Legislature, and the success of the bill incorporating the Valley Railroad Company, which proposes to construct a road from Winchester up the Valley to the Tennessee road at Salem, is pronounced by the Richmond Times as certain.
